Important Points to Note When Applying for *Higher Nitec* courses with Interview Requirement:

1) Priority in selection for courses with interview requirement will be given to **first-choice applicants** based on their results. **Applicants applying for these courses are recommended to indicate them as their first choice**. Shortlisted applicants will be required to attend **an interview (which may include a test)** to assess their suitability for the course. Applicants who are unsuccessful at the interview will be considered for their **remaining choices which do not require interview for admission** based on merit and choice. For all other courses, based on the result of applicants, selection will be by merit and choice. Applicants who are keen in courses with interview are encouraged to apply for a mix of courses with interview and courses without interview in their choices to maximise their chance of posting.

2) The courses that will conduct **online** interview are Hospitality Operations, Motion Graphics and Visual Effects. **Microsoft Teams** is the platform that will be used for the **online** interview, and is available at https://www.microsoft.com/en-sg/microsoft-teams/download-app. If you are applying for courses with online interview, please install the Microsoft Teams app on your device (e.g. laptop, PC, smartphone etc.) before the interview, and ensure that the front-facing camera and microphone permissions are enabled for the app. If you are shortlisted for interview, the interview invitation and details will be emailed to you. Please **update your email address during application**.
